**AFI 40-102, 3 June 2002 is supplemented as follows:** This supplement applies to all personnel assigned or attached to the 436<sup>th</sup> Airlift Wing. It also applies to the 512<sup>th</sup> Airlift Wing (AFRC) as concurred by the commander.

### ***SUMMARY OF REVISIONS***

**This document is substantially revised and must be completely reviewed.**

2.1.1. (Added) The Air Force will no longer designate non-tobacco use areas. All areas will be considered tobacco free with the exception of "Designated Tobacco Use Areas".

2.2.3.1. (Added) The only recreation facility that has a designated indoor tobacco use area is the Bowling Center. This area is for use of patrons only.

2.2.3.1.1. (Added) Designated Tobacco Use Areas. These areas must have adequate ventilation and air movement patterns that protect the health and comfort of non-tobacco use patrons. They must:

2.2.3.1.1.1. (Added) Be available to all patrons.

2.2.3.1.1.2. (Added) Provide for a high-mixing potential (e.g. no barriers; such as walls or partitions) to free air circulation within the tobacco use area, use fans to mix air, and be located near exhaust ducts to enhance mixing potential.

2.2.3.1.1.3. (Added) Have an appropriate air handling system that can prevent smoke/odor from the tobacco products from seeping out into the tobacco free areas.

2.2.3.1.2. (Added) All designated tobacco use areas, with the exception of those in paragraph **2.2.3.1. (Added)**, must be located outside of the building. These areas must be at least 50 feet from flammable/toxic materials.

2.2.11. Squadron commanders will ensure tobacco use areas meet all safety, signage, location and courtesy requirements as described in AFI 40-102 "Tobacco Use in the Air Force".

2.2.11.1. (Added) Tobacco disposal containers located near a building's points of entry/exit are for disposal only. The presence of disposal containers near entry and exit points does not constitute a tobacco use area.

2.2.12. (Added) Tobacco use will not be allowed by military personnel walking in uniform on Dover AFB.

2.2.13. (Added) Tobacco use will not be allowed by military personnel bicycling in uniform on Dover AFB.

2.2.14. (Added) Tobacco use is prohibited in Air Force vehicles by all personnel, civilian or military.

7. (Added) **Responsibilities.**

7.1. (Added) Child Development Center and Youth Center patrons, employees, and volunteer youth sports managers/coaches will refrain from using tobacco products in the presence of children.

7.2. (Added) Tobacco users must properly dispose of their own tobacco products in receptacles. Tobacco users are solely responsible for maintaining designated tobacco use areas (i.e. clear of used tobacco products and no butts on the ground). If proper receptacles are not available, hold your used tobacco products until a proper receptacle is found.

7.2.1. (Added) Smokeless tobacco users are responsible for disposing of their used tobacco products in a sealed container and then placing the container in a waste receptacle.

7.3. (Added) The Medical Group Commander will designate the Health Promotion Program Coordinator to oversee tobacco cessation classes. All tobacco users will be afforded the opportunity to attend tobacco cessation classes.

7.4. (Added) Supervisors will periodically brief all personnel on the requirements of this instruction.

SCOTT E. WUESTHOFF, Colonel, USAF  
Commander
